"This book is an attempt to chronicle the mission of setting up the first ever Naamghar in the USA as spearheaded by the author. Naamghar is the legacy of the 15th century Assamese polymath, Srimanta Sankardeva, the greatest Assamese in history and an apostle of dharmic Assamese identity. The reader will learn a lot by reading this book about this great soul. The author deserves profuse congratulations for this book which will go a long way towards generating a consciousness about Naamghar and Srimanta Sankardeva".

Dr. Umesh C. Tahbaldar, South Brunswick, NJ (USA)

"Dr Binoy K Bordoloi is a scientist and philanthropist. At the same time he is deeply interested in Sanatana Dharma and its comparison with other religious orders as well as relevance in the present era. This motivates the present work, a large part of which is dedicated to discussion about Srimanta Sankardeva, a great Hindu preceptor from medieval times Assam. The non-initiated readers will find it stimulating to make them delve more. There is a cosmopolitan approach in the book."
